

**Food Oasis Solutions Lab
Eat. Cook. Grow.**

For its next set of Food Oasis investments, The Atlanta Falcons Youth Foundation (AFYF) wants a greater understanding of the landscape of Georgia's food system due to the impacts of COVID-19. AFYF is looking for clever innovation and scalable solutions that change the food futures for Georgia kids and families. AFYF seeks to invest in a select number of multi-year efforts and convene the partners regularly to promote peer learning and exchange as we begin to understand the new normal in ensuring Georgia's youth is gaining access to the highest quality food. Successful grants will be ones that help more children and families eat, cook and grow healthy food.

Funding Priorities

AFYF will consider requests to 1) test innovative breakthroughs; 2) scale up evidence-based programs; 3) help organizations capacity build due to the impacts of COVID-19; or 4) fund collaborative programs between two or more organizations. The process will begin with organizations completing a questionnaire that serves as a draft proposal. From this submission, AFYF will determine which proposals to consider for funding. Across all areas of work, AFYF will seek evidence that organizations are using scalable, sustainable solutions in food deserts. Nonprofit organizations with a 501c3 designation are eligible to apply, as are public school districts and county parks & recreation departments.

AFYF is looking to fund programs with evidence of impact with scalable solutions, with up to three years of support. To be considered for funding, please complete the questionnaire below and submit to AFYF **by February 26, 2021**. Based on its review of the submissions, AFYF will invite a select number of organizations to move forward with final grant applications. Feel free to share the link below to any organizations you feel would like to apply and could benefit from this program.
