

Giving Area

## Environment

Reducing climate-fueling emissions by supporting clean electricity and healthy soils

Recent Grants

## Clean Energy

▪ **Capital Good Fund:**

\$1 million for the Georgia BRIGHT (Building Renewables, Investing for Green, Healthy, Thriving communities) pilot project, which uses innovative financing to lease rooftop solar systems to low- and moderate-income families in Georgia

▪ **Clean Grid Initiative:**

\$6.1 million to support a collaborative philanthropic approach to expand transmission infrastructure in the U.S.

▪ **Southern Environmental Law Center (SELC):**

\$2.5 million has to support its Clean Energy Program, which focuses on increasing clean energy deployment in the Southeast

Giving to Date

More than **\$23 million** since 2022

Key Staff

**Blair Beasley**  
Managing Director

**Peter Brown**  
Sr. Program Officer

### Energy

Working to accelerate the deployment of clean electricity and its positive benefits on people's lives in the Intermountain West and Southeast.

### Land

Working to increase the protection of native grasslands and the adoption of climate-smart agricultural practices across the state of Montana.
